Road Fund Licence

As of 1 March 2001, all new vehicle registrations are subject to a new type of Vehicle Excise Duty (Road Fund Licence). This varies in accordance with the vehicle fuel type and CO₂ emissions. The table below shows the bands (A–D) created by the DVLA and the corresponding Road Fund Licence as of 1 May 2003. These prices may reduce the On-The-Road Price on page 03 which reflects the highest band rate. Please refer to page 16 to identify the CO₂ emission level for the engine and transmission of your choice and adjust the On-The-Road Price accordingly.
