Take-back of end-of-life vehicles. Coming full circle. At the end of its long life, you can return your Viano to us for environment-friendly disposal in accordance with the EC End-of-Life Vehicle Directive. But that day lies a long way off. The take-back of end-of life vehicles applies in accordance with national regulations to vehicles up to 3.5 tonnes gross weight. The Viano has met the statutory requirements governing the suitability of a vehicle's design for reuse and recycling for a number of years now. A network of vehicle take-back depots and dismantlers has been established which will process your vehicle in an environment-friendly manner. The ways in which both vehicles and parts can be recovered are subject to ongoing development and improvement. Consequently, the Viano will be able to comply with any future increases in the recycling quota within the stipulated time limits.
