The Mercedes-Benz E 250 CDI BlueEFFICIENCY Saloon and Estate have always been popular choices for fleets. Now they're set to become even more popular as they come with new 7G-Tronic Plus Automatic transmission. This transmission delivers more refinement, yet achieves in making the vehicle more economical than ever before.

Other energy saving innovations can be found throughout, from the fuel pump, to the power steering, to the aerodynamic side mirrors. It also boasts specially developed tyres. Add to these the new 7G-Tronic Plus Automatic transmission and it now delivers up to 57.6mpg (combined).

The vehicle is also packed with technical innovations. The Estate features an Automatic powered tailgate and both the Estate and Saloon are equipped with Attention Assist, which monitors your driving style and tells you to take a break if it detects any signs of fatigue.

Within this guide you'll discover how the E 250 CDI BlueEFFICIENCY SE Saloon and Estate with 7G-Tronic Plus Automatic transmission compare to their nearest competitors, in terms of whole life cost, fuel economy and CO₂ emissions.

CAP recommended

CAP's benchmark analysis reports the 7G-Tronic Plus Automatic transmission beats its rivals when it comes to fuel economy, emissions and service costs.

“The Mercedes-Benz E 250 CDI BlueEFFICIENCY SE Saloon with 7G-Tronic Plus Automatic transmission is the perfect choice for your company, beating the comparable Audi and BMW models in terms of fuel economy, CO₂ emissions and service costs. It also delivers an additional 11mpg above its nearest rival, the BMW 525d SE Saloon. This, over a period of three years, equates to substantial savings of over £1,500.”

CAP also recommends the E 250 CDI BlueEFFICIENCY Avantgarde Estate:

“With CO₂ emissions over 12% better than its nearest rival, this vehicle is the most tax efficient estate car in its class. To the company car driver this translates to a saving in company car tax of over £2,000 over a three-year period. It's also 20% more fuel efficient than the sector average meaning, at current rates, savings of £1,350 over the same period. All this adds up to a package that's far better for the environment as well as the pocket.”
